Paragon Systems Expands Sage FAS Fixed Asset Management Operations to Portland Area

Newly opened west coast office will provide physical asset inventory services, fixed asset management consulting, and Sage FAS software sales and implementation to businesses in the Portland, OR area and throughout the Pacific Northwest.

Chicago, IL – May 26, 2009 – Paragon Systems (www.depreciationexperts.com), a provider of Sage FAS Fixed Asset Management Software, physical asset inventory services, fixed asset valuation, and cost reconciliation studies, has announced the opening of a new office based in the Portland, Oregon area, naming Angie Bolton-Lyons as Manager of the new West Coast operation. This office specializes in physical asset inventory services, fixed asset business process controls & policies, and implementation of Sage FAS fixed asset management software solutions.

Prior to joining Paragon Systems, Ms. Bolton-Lyons held the role of senior Sage FAS Consultant and Trainer where she was responsible for all aspects of fixed asset management and implementation of [Sage FAS software](#) solutions. She has over 10 years of fixed asset management experience selling, implementing, training and developing internal business process controls & policy structure for hundreds of businesses in multiple industries. Paragon Systems will also benefit from her proven leadership skills, people management experience, specialized knowledge of Sage FAS fixed asset software, and a high level of project management proficiency.

According to Scott Swarts, President of Paragon Systems, “As a proven leader in our industry, Angie has been successful with her product marketing strategies and helping clients realize the benefits of the Sage FAS software solution. Her knowledge, combined with Paragon’s fixed asset implementation and professional services team, will surely enhance our firm’s position and capabilities, improving client services. She will also bring exceptional marketing expertise and a fresh perspective to our corporate business model for growth of Paragon International, Inc..”

According to Angie Bolton-Lyons, “The experience I have gained over the last 10 years with the Sage FAS solutions as well as consulting on all aspects of fixed asset management will serve me well at Paragon Systems. I’m excited about my new role and look forward to the opportunities ahead.”

To contact Angie Bolton-Lyons directly in the new Portland Area West Coast office, dial (877) 824-6834 x164 or by email to alyons@paragon-net.com.

About Paragon Systems

Paragon Systems, a division of Paragon International, Inc. located in Schaumburg IL, is an authorized business partner of Sage Software and certified in the Asset Accounting and Inventory applications.
